Letter No. 1[illegible]/17-6 Dated 21-1-18

To

The Surgeon General
with the Govt. of Madras

Sir,

As I understand that you wish to offer your remarks on the plans for the proposed new combined hospital at Mangalore prepared by the C.A. to Govt, I have the honour to forward them herewith together with a file of correspondence on the subject and to request that you will be so good as to return them at a very early date with your criticisms. The Govt have sanctioned a grant of Rs. 20,000 for expenditure in the current year on the out-patients' dispensary & they desire the preparation of plans &c to be expedited.

I have &c

To The Chief Engineer,

Public Works Department,

Madras.

~~Sir~~,

Letter No.111-S.E./130-U., dated 19th January 19 from C. Peddie, Esq., Executive Engineer, West Coast Division, to the Superintending Engineer, IV Circle, Coimbatore:--

---

With reference to your No.1010-W.C., dated 31st December 1918, I have the honour to return the blue print plan of the proposed new Hospital at Mangalore after having marked out the proposed building on the site.

The actual distances of the corners of the proposed buildings as marked out on the site from the existing compound wall are given in the plan, also levels of the ground along the sides of the proposed building so that

per
Sows BM

the necessary depth of foundations and basement can be estimated for fairly accurately.

Where the building comes close to where ground falls away rapidly, levels every two feet apart along a line in continuation of the side of the building are also given, as at these places the foundations will necessarily have to be carried deeper.

I request that something may be settled and orders issued as to what is to be done with the existing Wenlock hospital when the new hospital is started, as it should first be temporarily located in some other place. As otherwise, apart from the discomfort due to noise and dust to the patients, it would be inadvisable to construct part of the new hospital on ground not occupied by existing buildings and construct the rest of the new hospital building afterwards. Owing to unequal settlement a crack is almost certain to form where the two parts of the building join.

I mention this, as I found on talking to the Civil Surgeon that he was under the impression that part of the new hospital would be constructed on vacant site, and the existing hospital located in it and then the rest of the new hospital constructed after demolishing the vacated old hospital buildings.

Copy forwarded to the Chief Engineer, P.W.D., Madras, with reference to his letter No.1-Wks.B-17-14 dated 26-12-18 together with the site plan.

The Surgeon-General may be consulted as regards the last 2 paragraphs of Mr. Peddie's letter.

The mound on which the hospital stands is partly artificial but has been in existence for over 60 years and is subject to a rainfall of about 130 inches a year, so it is no longer liable to much settlement if any.

The difficulty anticipated by the Executive Engineer is

that

that of connecting different parts of the proposed new buildings if they are begun at different times.

From (Name) The Hon'ble Major-General G. G. Giffard, C.S.I., K.H.S., I.M.S.,
(Designation) Surgeon-General with the Government of Madras.

To The Secretary to the Government of Madras,
Local and Municipal (Medical) Department.

Sir,

With reference to Government Memorandum No.1279-1 Medl. dated 16th May 1919, regarding the temporary accommodation of Wenlock Hospital at Mangalore, I have the honour to state that I had proposed to look into the matter during a visit to Mangalore after the monsoon but I have been unable to do so. Herewith are enclosed copies of letters Nos.0/94 (with plan : original) dated 4th and 7th August 1919 from the District Medical and Sanitary Officer, South Kanara and to state that I agree with the proposals made by him for the temporary accommodation of the Wenlock Hospital, Mangalore while the

existing

existing hospital buildings are being demolished and reconstructed.

I have the honour to be

Sir,

Your most obedient servant,

Major-General, I.M.S.,

Surgeon-General with the Government of Madras.

87

Copy of D.O.No.O/94, dated 4th August 1919.

Reference:- Your D.O.No.O/213 dated 31st July 1919.

I have already considered the subject of locating the hospital during the construction of the new hospital and have had a talk over the matter with the Collector over a month ago and have arranged to hire for the purpose a bungalow and grounds within almost a hundred yards of the existing hospital site. There is a large sized bungalow on it and a large building which was originally put up as a school building for the Training School which will easily accommodate 40 patients. A few semi permanent sheds of the same kind as the General Hospital sheds will have to be constructed. I am getting a site plan made of the grounds with the existing buildings and will submit my proposals as soon as the plan is ready. In the meantime I beg to enquire if it will be possible to get His Excellency, the Governor to lay the foundation stone of the new hospital during His Excellency's visit to this district which is expected to be in October next. It would be a good thing if this were practicable and could be arranged for.

Yours sincerely,

(Sd) V. Verghese.

Dt. Medl., & Sanitary Officer,
Mangalore.

G.G.Giffard, C.S.I., I.M.S.

P.T.O.

26

D.O.No.94. Mangalore 7th August 1919.

Dear Sir,

In continuation of my D.O.No.A/94 dated the 4th instant, I herein enclose a site plan of the ground and buildings proposed to be rented for the location of the Head-Quarter Hospital during the construction of the new building.

No.1 can be adopted for the operation room and the outpatient dispensary.

No.2 can be used as a medical ward for 40 beds.

No.3 can be converted into District Medical and Sanitary Officer's Office.

A surgical ward, a septic ward, a cholera shed, a contagious disease shed, a kitchen and a latrine will have to be put up.

This is my rough idea, and any modification of the use to which the existing buildings can be adapted as well as the exact location of the new buildings proposed, may be considered during your personal inspection. It is proposed to rent the buildings and the ground on a monthly rental of Rs.100 which is considered to be moderate.

Yours sincerely,

(Sd) V. Verghese.

From (Name) The Hon'ble Major-General G.G.Giffard,C.S.I.
K.H.S.,I.M.S.,
(Designation) Surgeon-General with the Government
of Madras.

To The Secretary to the Government of Madras,
LOCAL AND MUNICIPAL (MEDICAL) Department.

Sir,

With reference to Government Memorandum No.383-I
Medical, dated 23rd February 1920, I have the honour to forwa
herewith countersigned the plans and estimate for Rs.9,800 fo
the temporary location of the Government Headquarter Hospital
at Mangalore while the existing hospital buildings are being
demolished and reconstructed and to request that the Governm
will be pleased to accord administrative approval to the
expenditure.

2. A copy of letter No.1143 M/628 I. dated the 16th 21st
July 1920 of the Superintending Engineer, forwarding the pla
and estimates is herewith sent.

3.

3. As regards the recommendation of the Advisory Committee that the new Government Headquarter Hospital should be built on the Urva Maidan, I am of opinion the Urva Maidan is totally unsuitable to be the site for an hospital for the town of Mangalore as it is for the northern end of the town and is really outside the town. There is also another very serious difficulty that the Maidan is Military property and that the Military have so far no inclination to part with Military ground.

I have the honour to be,

Sir,

Your most obedient servant,

Major-General, I.M.S.,

Surgeon-General with the Government of Madras.

S.N.Rao

Copy of letter from M.R.Ry.Rao Bahadur R.N.Arogyaswami Mudaliyar Avl., B.A.,B.C.E., Offg.Superintending Engineer, IV Circle, Coimbatore, to the Personal Assistant to the Surgeon-General with the Government of Madras, Madras, No.1143 M/628 I, dated the 16th 21st July 1920.

Subject:-Estimate for providing temporary accommodation for the Government Hospital, Mangalore.

With reference to your letter No.R.C.2951/3, dated 4th June 1920 to the Executive Engineer, West Coast Division, I have the honour to forward herewith plans and estimate amounting to Rs.9,800 for the work cited above received from the Executive Engineer, West Coast Division, with his No.963-S.E.of 14th June 1920. The Executive Engineer since reported in his letter No.1000-S.E. dated 23rd June 1920 that it was decided at a meeting of the Advisory Committee held at Mangalore on 15th June 1920 to recommend to Government that the new Hospital should be built on the Urva Maidan and suggested that until the final orders are passed by Government on the above proposal the preparation of plans and estimates for the proposed new Hospital, Mangalore, and the scrutiny of the plans and estimates sent by him for improvements and repairs to the private building to be hired for the purpose, to make it suitable as a temporary Hospital may be kept in abeyance, and they were therefore retained in this office pending the final orders of Government on the subject.

Since the District Medical and Sanitary Officer, South Kanara now requested in his letter Reference on 99/20 G.H.of 8th July 1920 (copy enclosed) to forward to you the plans and estimate for the temporary accommodation, they are herewith forwarded for favour of necessary action.

In this connection, I request that I may be informed as soon as possible whether final orders have been passed by Government on the proposal of constructing the new Hospital on the Urva Maidan in order that I may complete the plans and estimates for constructing the new Hospital at the original site in case the new proposal is not

not approved by Government...

Letter Ref: on 99/20 G.A.dated 8th July 1920, from M.R.Ry. Rao Bahadur V.Verghese Avl., Ag.District Medical and Sanitary Officer, Mangalore, to the Superintending Engineer, IV Circle, Coimbatore.

I have the honour to request you to kindly forward if you have not already done so, the plans and estimate for the temporary location of the (Wenlock Hospital) Government Headquarter Hospital, Mangalore, to the Personal Assistant to the Surgeon-General with the Government of Madras.

33

Report to accompany the estimate for Temporary accommodation of the Mangalore Hospital.

Estimate Rs.9800/-

The new hospital is proposed to be built on the site of the present hospital after dismantling the existing structures. Temporary accommodation has therefore to be provided for the Hospital for the time the new buildings will be under construction. It is proposed to rent the premises shown in the site plan W.C.No.83/1920 annexed, with the existing buildings thereon, for the temporary accommodation of the Hospital.

The existing buildings will be improved and repaired to meet requirements of the hospital as far as possible as shown in plan W.C.No.84/1920, new temporary structures based on type designs ~~Sanitary No.16 of 1918~~ will be erected as shown in plans W.C.Nos.85,86, and 87 of 1920 for the remaining requirements.

2. The positions of the exisiting buildings to be improved and repaired and of the temporary structures to be erected are shown in the site plan W.C.No.83/1920. Detail specifications for the improvements and repairs to be carried out to the different existing buildings and for the new temporary structures to be erected are annexed.

The proposed improvements and repairs of the existing buildings and the new temporary structures to be erected are in accordance with the wishes of the District Medical and Sanitary Officer who has also countersigned the specifications and plans.

Executive Engineer.

D.O.No.4093 M-1

7th August 1916.

My dear Surgeon-General.

(6)

In G.O.No.1382 M., dated 6th September 1915 the Government have approved the proposal of the Mangalore Municipal Council to reconstruct the Wenlock hospital and have also directed that the question of acquiring a new site for the women and children's hospital should be deferred for the present. From your remarks in the visitors' books however it would appear as if the need for a new women and children's hospital was the more urgent matter of the two and not one that can be indefinitely postponed. Judging from the papers ~~above~~ alone it would seem to be a possibility that the two might be provided for by building a new general hospital on a fresh site and transferring the women and children's hospital to the Wenlock hospital buildings. Of course local knowledge may show that this idea is out of the question. It seems just possible, however, that it may afford a means of providing for the two institutions which has not been considered. I am therefore to ask you to be good enough to advise Government if there is anything in it.

Yours sincerely,

The Hon'ble Surgeon-General

W.B.Bannerman, C.S.I., M.D., D.Sc., I.M.S.,

Surgeon-General with the Government of Madras.

Adyaramma

ROYAPETTA,
MADRAS,

25th August 1916.

C No 5089-M
28-8-16

My dear Todhunter,

P I Suptra

Your D.O. No.4093 M-1 of 7th August 1916 regarding Women and Children's Hospital at Mangalore.

I believe the proper thing to do in Head-quarter Hospitals is to have one large general hospital, the female half of which is divided off by a wall and in charge of a lady doctor. This tends to economy as one operation room does for both, and also one out-patient department.

× portion is marked. Plan p 407 G.O No M 134 M 5/10/16

This plan has been actually carried out at Madura, and has been proposed for Coimbatore.

In Mangalore I am afraid that the compound of the Wenlock Hospital may be too small for this, but I am not sure. A site plan should be got, and the Consulting Architect consulted as to its capabilities.

If found large enough or if capable of extension then another site need not be looked for.

The

The site proposed for the new Women and Children Hospital is just across the road from the Wenlock Hospital and would therefore serve very conveniently as the female side of the general hospital though not of course so ideal as a hospital in one compound would be.

I would suggest therefore that the Wenlock Hospital compound be surveyed with a view to a general hospital for both males and females being accommodated in it. I do not know of any other site where a general hospital could be located, but the compound where it was proposed to build a new Women and Children hospital might also be included in the above survey.

Yours sincerely,

W R Cannaway

To

The Hon'ble Mr. C.G. Todhunter, I.C.S.,

Secretary to the Government of Madras.

[C.No. 6602/M from the C.M.C. Mangalore No. 371 dy 6/11/16]

In Memorandum No. 5089-I/7 dated 8th September 1916. The Mangalore Municipal Council was requested to consider the possibility of combining both the Wenlock Hospital and the Women and Children's Hospital into one building with separate sides for men and women and to report after an accurate survey

on the sufficiency of the present site for the Construction of the Combined building. The Chairman now reports that a Careful survey of
p6 of cf the site on which the Wenlock hospital now stands and the site proposed to be acquired for the Women and Children's hospital was made. A Committee Consisting of the Surgeon-General, the Collector, the Executive Engineer and the District Medical and Sanitary Officer (the Chairman) after inspecting the sites came to the Conclusion that the present site for
p12 of cf the Wenlock Hospital would be adequate for the Combined hospital provided that the maternity ward is kept distinct and that when the new buildings are Constructed the present Women + Children's hospital with slight modifications should be made a maternity ward. The Municipal Council
Resolution on project has agreed to the Combined hospital provided that there is a complete separation of the male and female wards in the hospital buildings and that similar provision is made in the outpatients department as well. The Council and the Collector both Consider that the exact location of the different buildings should
pp 9 + 10 of cf be decided by the Consulting Architect to Govt after personal inspection of the site before the plans and estimates are taken in hand.

p2 supra

2 In his D.O no T86 of the 25th August 1916 the Surgeon General suggested that a single out-patient department would be sufficient for both men and women. The Council's proposal is apparently that the single out-patient department should be divided into two portions one for each sex. If so it is for consideration whether the file may now be sent to the P. W. D. for further action in regard to the preparation of plans and estimates for the Combined hospital. Obviously the improvements necessary for the Women + children's hospital are trifling and will be made by the Council itself.

P.K.A.
16/11/16. 16.11.16

The P. W. D may be requested to take the necessary steps for getting revised plans and estimates prepared.

D.S.

Please see this department note on p 7 ante. Before determining whether an inspection of the site by C.A is really necessary the file was examined in the chief Engineer's office and it is found that

K.V.S. 3/1/17

W.K.S.B

flag 'K'

that there is not sufficient information to form an idea whether the proposed site will be enough for a hospital for men, women and children. The accommodation specified a/ 2 9 S.O No 222 (X) in S 12.11.14 is evidently meant for males only. It is however remarked that even in this list no provision is made for the Administration Block (D.M.O & S.O's office, telephone room, X Ray room etc) nurses' and servants' quarters (if these are necessary). K As regards the accommodation required for females and children nothing is known. The requirements summarised at pages 12-14 C/ do not also contain information on this subject. Unless the actual accommodation to be provided is known it is not possible to say if the site is sufficient for all the hospital buildings. The L & M ~~(Medical)~~ dept may therefore be asked U.O to ascertain and furnish the exact requirements of the proposed hospital.

N.B. Items 12 to 16 may be considered as comprised in item 11, outhouses.

It is also proposed that the present women + Children Hospital is to be adapted for a Maternity ward - Vide pp 12 to 14 CF.

The Site plan

V

shows the existence of some buildings on the site - Plans of these and of the Women & Children's Hospital have not been received. The Chairman does not say anything about ~~an~~ administration block; but it is proposed by the CE to provide one on the lines of the typed design. Nurses' quarters & Servants' quarters not asked for by ~~the Chairman~~ ~~he~~ need not perhaps be provided. The Scheme to be prepared by the P.W.D will not include the adaptation of the existing women & children hospital for a maternity ward. Ip 16 cf. The C.A. has roughly designed the various buildings & thinks that it may be possible to put them all on the site of the existing Newlock hospital provided there are no special difficulties not apparent from the ~~plan~~ site plan. There would be no space for future extension ~~unless~~ unless the double storey buildings were made strong enough for a third storey, in which case space for lifts should be provided. The local officers of the Surgeon General insist on an

an inspection of the site by the C-A. before anything further is done, as the site is an exceptionally difficult one. In the circumstances, L & M. may be requested to say if there is any objection to the postponement of the inspection till Mr. Nicholls, the permanent C-A. takes over charge, which will be about the middle of June.

Draft 26/2/19 — 27/2 See

2460

Note by Surgeon General Giffard with reference to letter No.208-W/628 dated 21/25th February 1919 from S.E..IV Circle to Chief Engineer.:-

At my visit to Mangalore I met Mr.Vibert, Dr.Verghese and Mr.Mullings. It was then decided that the old residences of the S.A.S. should be demolished and that all residences for Hospital professorial staff and Nurses should be built on a triangular space of waste ground opposite the N.W. corner of the hospital.

G.Giffard.

12th March 1919.

The hospital ~~shall~~ should have water carriage drainage and a septic tank.

G.Giffard

12th March 1919.

Copy of letter No.208-W/628-I dated 21/2/19 from the Superintending Engineer, IV Circle, to the Chief Engineer, P.W.D.:-

Subject. Mangalore Hospital.

With reference to your No.1 Ks.B-17-16, dated 14-2-19, I have the honour to state that from the small number of latrine arrangements it is obviously intended to have a water supply, a water carriage drainage system and septic or other tanks to get rid of the sewage. A septic tank could only be located in the South-east of the compound in the low ground near where the Sub-Assistant Surgeon now lives. Here also the latrines for the medical students and for the hospital servants would be required. Consequently the quarters of the Sub Asst. Surgeon would have to be abandoned, so I request that necessary orders may be passed on the proposed arrangements. If what is proposed now is approved the Sanitary can kindly be requested to furnish an estimate for water supply, drainage and sewage disposal.

p 28 cf OM 383 - I Medl dated 23.2.20

" 29 " C no. 2440 from the Sly no. 19 Bl/643 d 28.7.20

p 29 cf The Sly forwards for the approval of Govt plans and estimates for Rs 9,800 for the temporary location of the Wenlock hospital at Mangalore while the existing hospital buildings are being demolished and reconstructed. He

pp 30-31 cf also brings to notice a proposal of the advisory committee to locate the new combined hospitals in the Kuwa maidan and states that this proposed site is totally unsuitable for the purpose.

2 Site. The present site of the Wenlock hospital which has been proposed for the new combined hospl was approved by the municipal Council the DMS SD and the Surgeon General.

(3) ~~(K)~~ (p6 of Go no. 2227 M dated 12.11.14)

The question of removing the hospital to another site does not appear to have been raised before. Even now the Govt have not received any proposal to that effect from the advisory Committee

p 31 cf who seems to have considered the question. In these circumstances there seems to be no sufficient ground to reopen now the question of site for the hospital.

by

3 The estimated cost of Rs 9,500 for temporary structures seems to be rather liberal - The P.W.D may be requested to keep down the cost as low as possible in view of the strictly temporary nature of accommodation required - That Dept will also consider the provision of necessary funds required for the work in the current year.

4 If approved the case may now be returned to P.W.D U.O

The detailed plans & estimates for the new hospital called for from the S.E. have not yet been received from him & a reminder has been sent to him separately.

The file is Returned

2 As regards the offer of Rs 9,500 now received for the erection of temporary structures in the compound of a private bungalow to be hired for the temp. accommodation of the hospital

hospital While the existing buildings are demolished and reconstructed, it is submitted that it has been countersigned by the S.E. IV circle who has powers of technical sanction upto Rs 50,000. It does not seem therefore necessary that it should be scrutinized in the Chief Engineers office with reference to the portion at K on page 36 ante. The S.E. may be asked to see that the cost is kept down as much as possible during execution.

The estimate however contains a provision of Rs 400 for "unforeseen works" As this provision is inadvisable small in estimates of this kind, it may be disallowed.

Memo No 4007-C&G-6/16

With reference to the second sentence of memo No. 383-1 med dt 23.2.20, neither the S.G. nor the S.E. has stated that the owner of the private building has been consulted in respect of the erection of temp. Structures and their removal subsequently when vacating the building. Instructions may therefore be issued to this effect that the work on the estimate of Rs(9800-400) 9400 should not be started until an agreement has been executed.

4. A draft order on the case is submitted. It may be issued after acceptance by the Chief (Tech.) & Financial.

Thro Accts DLN/1099.
Budget.

Chief 9.2.20 Dy 9-2-20

In re: to the temporary leasing of the private building, orders have first to be issued in the administrative Dept concerned (Ltm, Medical in this case) approving the renting of the building on the monthly rental of Rs 100/-. [There is no information in the file that the owner is willing to lease the building on this rent]. The terms on which buildings are usually leased by Govt for residential purposes are given in G.O.No. 159 W dy 26.1.17. These conditions will obviously not suit in the present case. The order to be issued in Ltm (medl) should also provide for an agreement being entered into with the Owner in re: to the leasing of the building. The agreement will have to be drawn up in consultation with the S.E after taking legal advice if necessary. The following two special conditions will have to be provided for in the agreement:-

(1) that the lessor will allow Govt to execute such additions or alterations to the building as are necessary to render it fit for

for

X orders about leasing residential buildings only (for other depts) are issued in P.W.D

X Vide p. 26 C/7

E'

[Pages 24 et seq of the notes only need be read].

The case relates to the construction of a combined General and Women's and Children's hospital at Mangalore. Detailed plans and estimates for the work have been called for from the Supdg. Engineer and are awaited. Pending construction of a new hospital, it is now proposed:

cf p. 36 ante

(a) to lease a private building on a rental not exceeding Rs. 100 a month for the temporary accommodation of the Wenlock hospital, Mangalore, while the present hospital buildings are

P 26 CF

are being demolished and reconstruc

(b) and to erect in the compound of the private building certain temporary structures at a cost of

9800 - 400 = 9,400 Rs. 9,400 for carrying on the work of the hospital.

2. The draft order put up by the L & M (Medl) Deptt in regard to the first proposal may, it is submitted, be accepted in financial. As regards the estimate for Rs. 9,400 it may be pointed out that it has not been scrutinised in the Chief Engr's office. In view of the fact that the structures to be put up are only of a temporary nature, it seems that the cost is high. It is, however, proposed to ask the S. E to keep down the cost as much as possible. It is for consideration whether the estimate will be accepted.

P. 37 ante

ibid

In addition may be made to condition (1) of the draft that Govt: should be permitted to remove such of the material of the temporary structures as they may desire when vacating the rented building.

C. 2466 " 4981/6623/28-7-20

Order this Memo. 612 dated this, the 11. 2.

The Govt approve the S.G.'s proposal to lease a private building on a rental not exceeding Rs 100 a month for the temporary accommodation of the Wenlock hospital, Mangalore, while the present hospital buildings are being demolished and reconstructed. The S.G. is requested to enter into an agreement with the owner, in consultation with the Supdg Engineer and the local Govt pleader as to the terms of the lease. The following conditions should be specially provided for in the agreement:—

1) that the owner will allow the Govt to carry out such additions and alterations to the building as may be necessary to render it fit for use as a hospital, and to put up such temporary sheds in the compound as may be required, and

and to remove the materials of the temporary structures when vacating the building

2

terminable only when the new hospital buildings to be constructed are ready and fit for occupation but the Govt will have the option of terminating the lease at any earlier date after giving the owner six months' notice

The question as to who should carry out the annual repairs to the building and pay the Municipal taxes should also be settled with the owner and provided for in the agreement.

2 Further orders will issue on the P.W.D. sanctioning the plans and estimates forwarded with the S.G.'s letter No 49854/643-Dy dt 28-7-920.
